

# Breakthrough to Greatness

## DEFINITIVE CLARITY

**Definitive Clarity** is the big “what”; it’s the ultimate mental certainty about *what you really want* in any area of your life. It’s the essential confidence needed for evaluating optimal choices and making good decisions. Like a laser beam it pierces through the fog of your most persistent doubts. It illumines options and possibilities that may be temporarily hidden under any resistance to or fear of moving forward.

**Definitive Clarity** comes from your intuitive internal compass, the natural God-given wisdom of your mind, heart, and spirit working together as one. Because it’s unambiguous and specific, this level of clarity often triggers a spontaneous sense of joyful wonder about life. It is continually and faithfully serving your highest good at all times and in all situations.

To activate **Definite Clarity** you need only decide to tell yourself the truth about the situation, condition, or relationship where you feel stuck. Anywhere you are stuck in life is an invitation to a breakthrough, and truth telling is the first step in any Breakthrough to Greatness.
